

Maine Township General Town and General Assistance Fund Budget Hearing  
March 31, 2020

Maine Township Budget Hearing has been videotaped.

For more detailed reports and discussions please refer to the recorded meeting at:  
<http://mainetown.com/government/meetings.shtml>

Indexed agenda at:

[https://mainetown.com/wp-content/uploads/2020/03/agenda\\_20-03-31\\_TFGA.pdf](https://mainetown.com/wp-content/uploads/2020/03/agenda_20-03-31_TFGA.pdf)

NOTE: Maine Township is committed both to open, transparent government, and to stopping the spread of COVID-19. To facilitate this, this General Town & General Assistance Budget Hearing will be held electronically, but equally transparently. We encourage the public to participate in our meeting electronically by joining our Zoom meeting. The link is <https://zoom.us/j/561451580> and also through our website.

Board Members Present and other Elected Officials: Trustees: Jones, Carrabotta, McKenzie and Sweeney, Supervisor Morask, Clerk Gialamas, Assessor Moylan Krey and Highway Commissioner Kazmierczak

Others in Attendance: Keri-Lyn Krafthefer, Dayna Berman, Doriene Prorak, Richard Lyon, Michael Samaan, Annette Carrabotta, Merna Zelenski, Robert Zelenski, Earl Wilson and Wiesia Tytko

Supervisor Morask called the hearing to order at 7:28 p.m. and led the Pledge of Allegiance.

Agenda Item: Presentation and Approval of General Town and General Assistance Fund Budget, Ordinance 2020-2

Administrator Berman presented the Budget & Appropriation Ordinance 2020-2 for Town Fund and General Assistance with the explanation sheet. She stated that she created a budget based on the parameters set forth by the board using actual expenditures and revenues from last fiscal year as well as taking into consideration some outside factors. A majority of the departmental line items remain the same or in some circumstances fall below last year's budget.

Supervisor Morask asked for comments and discussion.

See video at 58:54.

There was a lengthy discussion.

An article that Trustee Carrabotta submitted is attached.

There was a public participation from Merna and Robert Zelenski, Niles residents and Annette Carrabotta from Niles.

See video at 1:26:30.

After the discussion and public participation, the Board decided tabling this issue.

Supervisor Morask      Motion to table approving of General Town and General Assistance Fund Budget until April 28, 2020 Board meeting.

Trustee Carrabotta      Second.

Motion on a roll call vote as follows:

Supervisor Morask      Yes

Trustee Jones            Yes

Trustee McKenzie        Yes

Trustee Carrabotta       Yes

Trustee Sweeney         Yes

Motion carried.

Agenda Item: Adjournment

The Budget hearing was adjourned on a voice vote at 8:19 p.m.

## EVERY ILLINOIS METRO AREA LOSES POPULATION FOR SECOND YEAR IN A ROW

by **Bryce Hill** MARCH 27, 2020

New census data reveals that for a second year, all 10 metro areas based primarily in Illinois experienced population decline.

Illinois suffered its sixth consecutive year of population decline in 2019, but new U.S. Census Bureau data shows that for the second year in a row those declines happened in every metropolitan area of the state.

The only other year this happened was in 2018 – meaning both instances occurred in the years following Illinois' record-breaking income tax hike in 2017.

---

The long view is also distressing: Cook County suffered the nation's second-highest population loss during the past decade, according to the new data released March 26. Populations fell in 93 of Illinois' 102 counties since 2010.

There are 384 Metropolitan Statistical Areas, or MSAs, nationwide. Illinois is the primary home of 10 of them: Bloomington, Carbondale-Marion, Champaign-Urbana, Chicago-Naperville-Elgin, Danville, Decatur, Kankakee, Peoria, Rockford and Springfield. All 10 saw population loss from July 2018 to July 2019.

## All Illinois metro areas saw population decline in 2019

Change in population, July 2018-July 2019

Metro area	Population change	% change
Bloomington, IL	-893	-0.5%
Carbondale-Marion, IL	-930	-0.7%
Champaign-Urbana, IL	-251	-0.1%
Chicago-Naperville-Elgin, IL-IN-WI	-25,619	-0.3%
Danville, IL	-944	-1.2%
Decatur, IL	-495	-0.5%
Kankakee, IL	-91	-0.1%
Peoria, IL	-2,767	-0.7%
Rockford, IL	-994	-0.3%
Springfield, IL	-1,060	-0.5%

Source: U.S. Census Bureau

Note: Cape Girardeau, Davenport-Moline-Rock Island and St. Louis MSAs not included as they are primarily located outside of Illinois

### How are other U.S. metro areas faring?

Many areas in the U.S. are doing well, with some of the largest and fastest growth coming from parts of Texas, Arizona, Florida, North Carolina, South Carolina, Utah and Colorado.

## Metro areas with fastest, largest population growth mostly located in friendly tax environments

Population change, July 2010-July 2019

Largest population growth			Fastest population growth		
Metro area	Raw population increase	National rank	Metro area	% population increase	National rank
Dallas-Fort Worth-Arlington, TX	1,181,071	1	The Villages, FL	40.5%	1
Houston-The Woodlands-Sugar Land, TX	1,118,905	2	Myrtle Beach-Conway-North Myrtle Beach, SC-NC	31.3%	2
Phoenix-Mesa-Chandler, AZ	743,999	3	Austin-Round Rock-Georgetown, TX	28.9%	3
Atlanta-Sandy Springs-Alpharetta, GA	717,766	4	Midland, TX	28.8%	4
Washington-Arlington-Alexandria, DC-VA-MD-WV	601,996	5	St. George, UT	28.3%	5
Miami-Fort Lauderdale-Pompano Beach, FL	583,094	6	Greeley, CO	27.6%	6
Seattle-Tacoma-Bellevue, WA	530,604	7	Bend, OR	25.3%	7
Austin-Round Rock-Georgetown, TX	499,581	8	Cape Coral-Fort Myers, FL	24.2%	8
Orlando-Kissimmee-Sanford, FL	468,986	9	Raleigh-Cary, NC	22.3%	9

While many urban areas are growing – some at a rapid pace – there are areas of the nation that are struggling. Manufacturing centers such as Illinois, Ohio and Pennsylvania have witnessed population decline. At the same time, the nation’s largest urban areas are the ones seeing the largest population decline. Chicago, New York and Los Angeles experienced the largest population decline of all MSAs.

The main difference between growing and shrinking areas is domestic migration. The MSA-level results come as no surprise, as the areas that are growing the most tend to be in states experiencing strong jobs growth while the areas shrinking the most tend to be located in states where labor markets have faltered.

**The slowest growing metros tend to have weak labor markets**  
 Population change, July 2010-July 2019

Largest population loss			Fastest population loss		
Metro area	Raw population decline	National rank	Metro area	% population decline	National rank
Pittsburgh, PA	-39,490	1	Pine Bluff, AR	-12.3%	1
Youngstown-Warren-Boardman, OH-PA	-28,745	2	Johnstown, PA	-9.2%	2
Cleveland-Elyria, OH	-27,029	3	Charleston, WV	-7.5%	3
Charleston, WV	-20,731	4	Beckley, WV	-7.3%	4
Flint, MI	-19,140	5	Danville, IL	-7.2%	5
Peoria, IL	-15,490	6	Weirton-Steubenville, WV-OH	-6.6%	6
Huntington-Ashland, WV-KY-OH	-15,192	7	Elmira, NY	-6.1%	7
Syracuse, NY	-14,517	8	Decatur, IL	-6.1%	8
Johnstown, PA	-13,269	9	Wheeling, WV-OH	-6.1%	9
Rockford, IL	-13,068	10	Watertown-Fort Drum, NY	-5.8%	10

@illinoispolicy

However, Illinois' people problem isn't just confined to metropolitan areas. In 2019, 92 of Illinois' 102 counties experienced population decline. Cook County once again experienced one of the largest population declines of any county in the nation, losing nearly 22,000 people from July 2018 to July 2019.

The picture gets even worse when comparing counties to what they looked like at the end of the Great Recession. Since 2010, 93 of Illinois' 102 counties have experienced population decline. Cook County lost 48,783 people for the nation's second-worst raw loss during the decade.

## Reversing the trend

Given the crisis posed by COVID-19, state lawmakers must focus their immediate attention on key public health measures, as well as preventing more job losses and small business closures during the economic freeze.

But when the public health threat subsides, Illinois must ensure it is in the best possible position to recover. Pursuing policies that attract and retain residents, rather than driving them away, will be crucial.

Taxes and correspondingly weak labor and housing markets have been the primary reasons Illinois has struggled to attract and retain people.

These are the challenges Illinois leaders must address in the long term.

Unfortunately, lawmakers are considering raising taxes on the last few growing regions of the state, threatening population growth in these areas and likely encouraging outmigration. Further, those tax hikes would potentially take effect just as the state starts its recovery from the current, severe market downturn.

Specifically, lawmakers are asking Illinoisans to approve a \$3.7 billion progressive income tax hike on Nov. 3. Very few areas of Illinois have experienced population growth in the past decade, but the few that have would see aggregate income tax hikes should that plan take effect.

Kane, Will and DuPage counties have seen some of the largest population increases in the state during the past decade. They are also the counties where many residents who would face a progressive income tax hike reside. Lake County would send 35% more in income tax revenue to Springfield should voters approve the plan, followed by DuPage (21% net tax increase), Kane (12%), McHenry (10%) and Will (9%).

The state's immediate future is unclear, as leaders work to address an unprecedented public health crisis. But in the long term, Illinois must do everything possible to alleviate tax burdens – and the uncertainty that comes with tax hikes – for individuals and businesses struggling to recover.
