# Overview

Glenkirk's mission is to provide quality, lifetime supports and services which empower individuals with developmental disabilities to participate fully in all areas of community life. Glenkirk actualizes this mission through provision of a variety of program options:

Glenkirk's **Residential Services Division** offers four options to meet a broad spectrum of needs:

- Community Integrated Living Arrangements (CILAs) provide structured 24-hour supervision in 20 homes throughout the north and northwest suburbs;
- Moraine Community Living Facility is an apartment-style residence where individuals enjoy the benefits of semi-independent living with on-site supports;
- Family Living Arrangements provide a foster-home environment where individuals join a host family and receive the benefits and supports of living in a family-like setting;
- Foundations for Neighborhood Living provides an array of intermittent supports that allow individuals to live independently in their own home or apartment.

**Employment/Day Services Division** comprises a variety of program options including Supported Community Employment, community-based leisure and recreational activities, adult learning programs, social skills building, and sensory integration services. Glenkirk's employment programs foster work at progressively more complex levels so that individuals with intellectual disabilities can work independently in their own communities. Our community-based programs include volunteerism, education, internet literacy, health, fitness, social relationships, and active lifestyles.

**Respite care** provides temporary, short-term, and time-limited relief to families caring for children or adults with intellectual disabilities.

**Life Balance Services** is a psychological and behavioral health program that provides an array of therapeutic and behavioral intervention services. Understanding that psycho-social and behavioral issues can be barriers to full community participation, Life Balance Services provides individual and group counseling, art and dance-movement therapy, and behavioral analysis to promote personal growth and development, improve self-esteem and social skills, and ensure successful participation in Glenkirk services.

**Medical Services Program** is critical to Glenkirk's mission. Our medical care coordination team

**Medical Services Program** is critical to Glenkirk's mission. Our medical care coordination team  
Service Area: Northern Cook and Lake Counties  
rules and coordinates staff support for all preventative and emergency care for participants,  
Fees/Insurance: Medicaid  
as continuity of care and follow-up, and tracks health outcomes. Through contracted  
Languages: English  
relationships with area medical providers, Glenkirk is able to provide on-site clinic services to  
participants that decrease wait times and allow for our participants to receive medical care in a  
safe and familiar environment.
